Analysis of Industrial Markets for Low and Medium BTU Coal Gasification. 1979. 296 p. il. E 1.30:2625-1 S/N 061-000-00346-1 \$ 8.00

uuw Architects and Engineers Guide to Energy Conservation in Existing Buildings. *This manual is intended for architects and engineers whose work includes the analysis and modification of existing buildings to reduce both fuel consumption and operation costs.* 1980. 455 p. il. Clothbound. E 1.26:0132 S/N 061-000-00394-1 9.00

Citizen Action Guide to Energy Conservation. *Enormous amounts of energy are wasted in the United States, even though stopping waste is often a simple process that can be accomplished by every citizen. This booklet contains practical suggestions on how you can do something to alleviate the United States energy problem. There are tips on conserving energy at home, at work, and your car, and suggestions on how citizens can combine their efforts and work toward energy conservation at the community level. The booklet gives the name and address of the State contact for energy information in every State.* 1973. 64 p. il. Pr 37.8:En 8/En 2 S/N 040-000-00300-2 1.75

Energy Efficiency in Light-Frame Wood Construction. This report presents information on the design and construction of energy-efficient, light-frame wood houses. It stresses the role of housing design and landscape planning, as well as orientation of the home, placement and design of windows, general configuration of the house for minimal heat loss in winter, and architectural strategies for comfort through natural use of sun and shade. In addition, it provides technical information on the thermal properties of construction materials and on the basic engineering design principles applicable to light-frame wood structures. 1979. 58 p. il.

Energy in Solid Waste. *This book reveals the amount of energy in our garbage, trash, and roadside litter that is now being wastefully burned, buried, dumped in the ocean, or thrown indiscriminately across our landscape. It points out how citizens, individually and collectively, can reduce this waste at home, at work, and at play, and how they can help in the recovery, recycling, and reuse of the resources now being squandered. The book also makes several recommendations on how the Federal Government can lead the way in fostering such actions.* 1974. 40 p. il.

Energy-Wise Homebuyer: A Guide to Selecting an Energy Efficient Home.

This guide can help you to choose a home that will meet your family's needs and also be efficient to heat and cool. It will show you how a house uses energy, how you can estimate your energy costs, and how to evaluate the energy efficiency of a variety of homes. In addition, it includes several energy checklists to take along when you inspect a house, as well as a number of tips on how to save energy after you move in. 1979, reprinted 1980. 60 p. il.

In the Bank Or Up The Chimney? A Dollars and Cents Guide to Energy-Saving Home Improvements. *This publication shows you where you can conserve energy, gives you an accurate estimate of how much it's going to cost, and then tells you how to do it. Includes step-by-step, illustrated instructions for insulating doors and windows, buying and installing attic and basement insulation, and routine service that will help you save energy with your heating, air conditioning, and water heating systems. It will help you decide which energy-saving projects are right for your home and includes information on choosing a contractor and obtaining financing for the more involved items.* Rev. 1977. 76 p. il.

GENERAL INFORMATION

There is no free distribution by this Office. Regulations require remittance in advance of shipment of publications, either by check or money order payable to the Superintendent of Documents. Do not send currency (bills or coins) or postage stamps.

With the exception of specially priced publications, a discount of 25 percent is allowed on quantity purchases (100 or more copies of a single publication). The same discount applies to orders from a bookdealer (any quantity) when the publications are mailed to the dealer's normal place of business. No discount will be allowed when publications are mailed to a third party (unless in quantities of 100 or more per title).

NON U.S. CUSTOMERS—International mailing regulations require special handling for which we charge an additional 25 percent of the total cost of your order. Remittance is required in advance of shipping by draft on a United States or Canadian Bank, by UNESCO coupons or by International Postal Money Order made payable to the Superintendent of Documents. These orders are mailed via surface mail unless funds are sent to cover airmail postage. Foreign currency or checks will not be accepted. All orders must be in English.

TO ORDER, USE FORM ON REVERSE SIDE. FOLLOW INSTRUCTIONS BELOW

1. Enter your complete name and address, your order number (if any) and date in the proper places at the top of this form. ****Enter stock number**, unit of issue^o, quantity, title and price of desired publication(s) and total enclosed. There is a \$1.00 minimum for mail orders; this is not a surcharge. Enter destination name and address and your order number on mailing label at bottom of form.
2. Mail order form to Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.
3. If a shipment is incorrect, return the shipping document with your request for adjustment. **DO NOT RETURN PUBLICATIONS UNTIL NOTIFIED TO DO SO.** All claims must be submitted within one year from date of your order.

THESE SYMBOLS WILL BE USED TO EXPLAIN HOW YOUR ORDER WAS HANDLED

Circle indicates the quantity of publications enclosed or scheduled for mailing.

B the publication is not available at this time but we have scheduled mailing for a later date. Charges have been included on your order.

L the publication is not currently sold by this Office. We suggest you contact your local library which can refer you to a Federal Depository Library in your area for further assistance.
